

**LCD PANEL FOR A SERVER SYSTEM**

**Abstract of the Disclosure**

A cPCI server system includes a plurality of printed circuit assemblies. A server  
5 management card coupled to the plurality of printed circuit assemblies monitors and  
manages operation of the server system. The server management card receives and stores  
status information from the plurality of printed circuit assemblies. A first LCD panel is  
mounted on the server system and is coupled to the server management card. The first  
LCD panel provides a user interface for configuring the server management card and  
10 accessing the stored status information from the server management card.
